**EVENING SCHOOL PLANS.**

The evening classes for adults conducted each winter by the Board of Education will be resumed on Tuesday evening, November 13th, at 7 o'clock, in Mynderse Academy.

The subjects taught will be according to the needs of those registering. A beginning English class for men and women will be included as well as advanced classes to meet the demand.

These classes will prepare for the literacy test required of all new voters who have not completed the sixth grade, and also for naturalization. Several persons passed the literacy test this fall whose only instruction in English had been obtained in previous evening classes.

Classes in sewing will also be organized, primarily for adults.

A class in children's clothing has been suggested and would be of particular value to young mothers. A class in the selection of materials, designing and construction of clothing should be of interest to employed girls. Blue print work and mechanical drawing could be given if wanted.

Any persons interested should communicate with Superintendent Mott in regard to courses to be taken, work that is covered or any other information desired.

There is considerable increase noticed in interest on the part of adults throughout the county in regard to this work, and it is to be hoped that many in Seneca Falls will enroll for the winter.

Courses other than those listed above can be given if there is a demand for them.

*"Be sure and write once in a while"*

— once the parting words when friends moved to another city — in times when a separation of a few miles equalled a hundred today.

Out-of-town telephoning was a novelty then. So most of us were forced to be content with an occasional letter.

How different today! A town twenty miles away on the map is only a minute or so away by telephone. And places even farther off—Boston, Philadelphia, Cleveland—they too are next door by telephone.

Yet out-of-town telephoning costs very little. To points fifty miles or so away only about forty cents. Farther away—a hundred miles—approximately seventy cents. And—a conversation across the entire nation from coast to coast costs only \$9.00.

Are you letting the telephone help keep alive the spirit of friendship with those living or visiting in other places? Use it today instead of writing that letter you owe. You'll be surprised how easy it is—how quickly you get your number—how little it costs—how satisfying it is.
