TO ADVERTISERS.

This paper, having a large and constantly increasin circulation throughout Herkimer County, is an excellent advertising medium for the business men of Herkimer, Mohawk, Little Falls, and other towns in this county, and Utica, Albany and New York. See rates on the first page.

SENTENCED.—Young MOONEY, convicted of murder at Dubuque, Iowa, has been sentenced to be hung on the 27th of the present month.

ELECTION OF DIRECTORS.—Seven directors of the Salisbury and Manheim Plank Road Company will be elected at the office of A. Loomis, Esq., in the village of Little Falls, on the 1st Monday of February next.

ERRATA.—Our paper of last week had more than a reasonable allowance of typographical and other errors. We trust the perception of the reader was such as to make the necessary corrections. A necessary absence prevented personal supervision of the proofs.

"JANUARY THAW."—On Saturday last there was a decided change in the weather—from extreme cold to a temperature so mild as to seriously damage the splendid sleighing, and leave the streets "sloshy" to an uncomfortable degree.

HERKIMER COUNTY POOR.—We observe notice has been given in the Assembly of a bill to distinguish between the town and county poor in this county. This bill, we presume is in pursuance of the resolution to that import adopted by the Board of Supervisors at their late session.

LEGISLATIVE COMMITTEES.—The members of Assembly from this county have been assigned positions on the following standing committies; Mr. Holcomb—Two-thirds and Three-fifths Bills; Roads and Bridges; Mr. Millington—Colleges, Academies and Schools; Joint Library—of which committee Mr. M. is the chairmsn.

CEDARVILLE.—The Cedarville Debating Society, which was organized some twenty years since is still in existence, and holds regular meetings once a week during the winter season, for discussions &c.

A festival for the benefit of the Universalist church will be given at the Cedarville Hotel, on the 17th inst.

COUNTY COURTS FOR 1860.—Hon. Ezra Graves, county Judge, has appointed four terms of the County Court and two terms of the Court of Sessions for the year 1860, as follows: The first Monday, respectively, in February, June, September and December.—The two last named terms are designated for the trial of issues of law, and such other proceedings as require no jury to attend. The February and June terms are designated as County Courts and Courts os Sessions, at which a grand and petit jury will be required to attend.

TAXES FOR THE YEAR 1859.—Every one who has paid his taxes for the year just closed, has been sensible of the fact that they are very high; but the causes are not so well understood. For the purpose of showing these, we publish a comparative table of the taxes levied in the town of Herkimer for the years 1858 and 1859. as follows:

	1858	1859
State Tax - - -	$1831.75	1766.52
School Tax - - -	785.04	767.11
County Tax - - -	3,009.93	2954.71
Towly Tax - - -	617.95	835.67
Town Tax for Highways -	1250.00	2030.00
	$7,423.77	$9,014.11

From the foregoing it will be observed there is a material increase in the county tax, and in that for highway purposes. A portion of the increase in the county tax is owing to an assessment of about $3,800, to pay off the principal and interest of the County debt, of which sum about $.00 is the proportion assigned to this town. In addition, the county expenses have been augmented in other towns than Herkimer. The increase of the Highway tax is for the purpose of paying off the debt contracted for erecting and repairing bridges.

The aggregate amount of money to be collected in the entire county, the current year, is $84,168,94; total amount in 1858, $75,782,-25—showing an excess in 1859, of $8,386,-69, and making the rate of taxation ninety cents and six mills, on the hundred dollars valuation.

A HERKIMER COUNTY FARM.—The Utica *Herald* truthfully remarks that the profits of the farmers and dairymen in Herkimer are increasing year after year, and the value of land in that county is steadily on the advance. We need cite but a single illustration to show what Herkimer is producing and how rapidly the work of progress goes on. Take the farm of Sylvester Hadcock, Esq., in Schuyler, embracing 206 acres, which was purchased by that enterprising citizen some fifteen years ago for $3,500. Last year from this farm Mr. H. sent to market 21 037 lbs. of cheese and about 500 lbs. of butter, all produced from 40 cows. These products of the dairy were of the choicest quality and commanded the highest prices. Probably not less than $2,200 was realized by Mr. Hadcock from his dairy last year. His lands meantime yield the ordinary fruits, vegetables and other products of the farm, and are constantly under a state of cultivation and tillage which is calculated to enhance their value. Competent judges estimate the value of his farm at $10,-000, and from the value of the products sent to market this year we should think this estimate low enough. But the lesson we wish to enforce, if one may be drawn from this allusion, is that of thrift among farmers. Certainly the experience of Mr. Hadcock furnishes an incentive to farmers everywhere to adapt their lands to the best possible uses and apply themselves diligently to the particular department to which their lands are adapted. In this way farming would not only be much more profitable but the value of land would increase rapidly year after year.

TEMPERANCE.—Rev. S. B. Loomis has consented to act as an agent of the New York State Temperance Society, in and for Herkimer county, and will commence his labors immediately. His special object will be to procure signatures to the petition adopted by the State Society, praying the Legislature to make the sale of liquor a misdemeanor. His postoffice address is Litchfield, Herkimer Co.

NEW PLANING MILL.—For some time past it has been understood that Mr. George Broomhall, of Mohawk, has been negotiating for thn purchase of a water power, on the Hydraulic canal, in this village, for the erection of a large planing mill. We understand that a purchase has been made and that Mr. Broomhall will proceed, at the earliest practicable moment, to construct his buildings, and put in the requisite machinery. Mr. B, is extensively known as the proprietor of the mills destroyed by fire at Mohawk in November last, and ranks foremost among the men of enterprise and probity in this county. The very fine water power afforded by the Hydraulic, together with railroad facilities, rendered the location at this place exceedingly desirable, and we take pleasure in recording the favorable conclusion of the negotiation.

OSWEGO COMMERCIAL COLLEGE.—We have repeatedly noticed in brief with our cotemporaries, the prosperity and success of the Commercial College, located in this city, where all the branches of a thorough business education are professedly taught. We doubt however, that very few if any have an adequate idea of the completeness and beauty of the system upon which this establishment is conducted.—Nor are we able to give within the space of a reasonably extended article, meritorious description of this admirably conducted school. Doubtless many have thought that simply to instruct the student in the art of Penmanship, and give him a theoretical idea of the science of Book Keeping. This, although well enough, by no means qualifies a man for business. The theory without the practice, necessarily leaves the learner as ignorant of the duties that make up the life of a business man, as when he first entered upon a course of commercial education This has not escaped the notice of the proprietors of this Institution, but has called out from them a new and novel system of teaching—the result of inventive genius—wherein the practice and theory are united, but the theory follows, not precedes the practice, the operations are performed and the principles and rules follow, making facts originate theory, and not theory facts

The rooms appropriately fitted and elegantly furnished, are located in the large and splendid buildings of J. M. Hart & Co., and to the visitor presents the appearance of a large and well regulated counting house. That the illusion may be as complete as is possible to make it, a Bank of issue is established with a capital of several thousand dollars, and the operations of each student in whatever particular branch of business he may be engaged, is based upon a certain amount of capital drawn from the bank. The student first initiated in the most simple branches of trade, soon finds himself actually engaged in various transactions with his fellow students as customers and creditors. Entering with them into various speculations of Profit and Loss, and keeping with them and the Bank a complicated set of accounts, thus placing him in a business bearing all the appearance of reality. He is first obliged to commence in the most simple kinds of business, gradually passing through the different departments, such as wholesaling, shipping commission, &c and finally completing his course by performing the different offices in the Bank. Such a system so complete, as well as novel, cannot fail to make the learner a ready active man of business, *fully prepared to enter upon the duties of life* with the fullest confidence of his abilities to act with safety and success.

In connection with this is introduced a course of Mathematics, designed to give a full development of its Philosophy, and its various applications to business pursuits, which forms a large and important part of a complete business education. Also a department for instruction in the art of Penmanship, under the supervision of one of the ablest and most successful chirographic artists in the land. Here may be found specimens of the art, in all its *different gradations, forming a gallery of* artistic beauty equalled by few, surpassed by none.

As an Institution for the promotion of those Sciences which are the foundation of business success, this is, indeed worthy of public attention. The terms are moderate, and the new Catalogue for the ensuing season, should not escape the notice of any who seek the advantages here afforded for obtaining an education of usefulness and honor.—*Oswego Commercial Times.*

WHAT THE RESCUED SAY.

From the Boston papers we extrac the following recitals:

A young woman, about twenty, nar rowly escaped an awful death. Unap prised of the fall of the building unti the terrible catastrophe itself cam upon her, she was at work in the thir story. She only knows that the who flooring above her was precipitated u on that on which she stood, accompa ied by a terrific noise. She was crus ed beneath some machinery near whic she was at work, her head being pres ed against a beam, seeming as she d scribed it, as if her head would "spl in two at every moment." Her lim were forced in one direction, her arm in another. But one arm could be us at all. Every second the heavy weig appeared to be settling closer and clos upon her. She saw nothing but dea awaiting her. Her feelings were tho of the most agonizing nature. S said that she prayed God that s

AIR—*Tom Bolin.*

Bryan O'Linn had a poor pair of shoes,
So to Lewis' great store he did go, saith the muse,
He found such a stock there, (I tell you no lies,)
That the sight was refreshing to Bryan's bright eyes.

Said he, "Misther Lewis, me fate are quite bare,
Would ye trust me the price of a couple of pair?
A pair of good thick ones and one pair of thin,
Will do for the present," said Bryan O'Linn.

Then Bryan O'Linn from his pocket drew out
A wallet as large as his foot near about;
"Cheer up, Misther Lewis—there's plenty within,
It is foolin' I was," said Bryan O'Linn.

He purchased his shoes and he got a good fit,
The price it just pleased him, 'twant too much a bit.
Said he, "Misther Lewis, a fine stock ye kape,
But bedad ye must stale them to sell them so chape."

Then hasten ye shoeless to the store of the Brothers,
They are rushing them off to make room for others.
A most difficult taste Mr. Lewis can suit,

"Should ye be axin where to go, d'ye see,
I'll tell ye the strate—its old Genesee;
At one hundred and eighty, ye'll find 'em within,
Is the last words I'm spakin," says Bryan O'Linn.

Herrick's Sugar Coated Pills.

☞CHILDREN CRY FOR THEM.☜

This remarkable American remedy is carrying the world by storm. Over five millions of boxes are sold annually. Composed entirely of Flowers, Roots, Balsams and extracts, their effect on the human system is pleasant, satisfactory and successful. Acting directly on the blood, glands, solids and fluids of the body, their ure is attended with the happiest effect. In sudden attacks of disease one or two doses always cures. In old standing cases of sickness, small doses—repeated frequently—is a cleanser the system, that good health is the result. No change in employment or diet is necessary. They never cause sore mouths, swelled joints, aching limbs, etc., as do many other kinds. They are warranted to give satisfaction, or the price will be refunded. They are considered cheaper, safer, prettier, and in all respects superior to any purgative Pill in the *world.* ☞The discovery of *coating* a pill with *sugar* emanated with Dr. Herrick. All others are counterfeits, and if used will do *harm*, and disappoint the sick. Herrick's pills are elegantly put up, 30 in a box, with a large sheet of directions, and sell for 25 cents per box; 5 boxes for $1.

Herrick's Kid Strengthening Plasters.

THE GREAT STRENGTHER

AND PAIN DESTROYER,

THE BEST AND CHEAPEST HOUSEHOLD REMEDY IN THE WORLD

These renowned Plasters cure pains, weakness and distress in the back, sides and breast, in five hours.—Indeed, so certain are they to do this, that the proprietor warrants them. Spread from resins, balsams and gums, on beautiful kid leather, renders them peculiarly adapted to the wants of *Females* and others. Their application is universal—equally to the strong man, the delicate woman, and the feeble infant To each and all they will prove a balm and a blessing.—Their use is agreeable and without annoyance or trouble. Each Plaster will wear from one to four months, and in rheumatic complaints, sprains and *bruises*, frequently effect cures when all other remedies fail.—Full directions will be found on the back of each.—Public speakers, vocalists, ministers of the gospel, and others, will strengthen their lungs and improve their voices *by wearing them on their breast.*—Price 18¾ cents.

☞The above articles are sold by all dealers in Herkimer, and by Druggists throughout the United States, Canadas and South America, at wholesale by all large druggists in the principal cities.

HOSTETTER'S

STOMACH BITTERS.

THE proprietors and manufacturers of HOSTETTER'S CELEBRATED STOMACH BITTERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medical properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for Dyspepsia and like diseases, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensible for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned ill deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain persons when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt, to forget her own health in her extreme anxiety for her infant. Should the period of matern
