

## If a suit of clothes

were advertised at the price you paid four years ago you'd buy it quick.

You know you need the suit yet we can sell you the same sound fire insurance protection we did years ago at the same price and you think that you are not interested.

Yet you need insurance badly. You need it to cover the increased value of your property and to save yourself from serious loss because of the increased value in case you burn. Better let us grant to you this added protection in a good strong fire insurance company, the kind that plans in advance and sells protection now at the same rate it did when values were low. XOwing to the continued dry weather, it has been necessary to add water to the present low supply. While the water which has been added is good spring water, the Village Board would suggest for the present that all drinking water be boiled.

### Childhood's Wish.

Barbara wanted a piece of apple, but while grandfather was getting it for her sleepiness almost overcame her and her eyelids began to droop. It was bedtime, but she winked and blinked and at last exclaimed: "I wish they had made the eye hinges a little tighter."

## EASTERN EUROPE TORN-STRICKEN

URGENT CRY FOR IMMEDIATE RELIEF HEARD IN AMERICA. WILL BE ANSWERED.

### THOUSANDS ARE FACING DEATH

Country Utterly Devastated — Food, Clothing and Medicines Needed. Drive for Relief Fund Being Organized.

New York—Eastern Europe, torn and trampled when the Russians made their triumphant march westward in the early part of the great war and utterly devastated when the Huns drove them back and played their game of havoc and pillage now, with the war ended, presents such a scene of desolation and want that it defies description. Hundreds of thousands are starving. Adults are barely able to keep body and soul together and infants, born in a world of want and hunger, are literally dying by the thousands.

The period of rehabilitation has not set in and cannot begin until aid comes. There is nothing upon which to base the process of reconstruction. All Eastern Europe is in terrible plight and its appeal comes resounding across the water to America. And America hears that appeal and will answer it with boatloads of food, clothing and medicine and other necessities of life.

'Tis true, the work of relief among the starving and desolate peoples of this devastated territory has been going on since the war, but the flood of necessities from this side must come in greater proportion than now.

And in reply to this cry of anguish and suffering from far distant lands there comes the answer of the American Jewish Relief Committee: "We will bring you relief."

The committee is about to launch a nation-wide drive for a large sum, \$35,000,000, with which to provide the necessities that will relieve the immediate sufferings of these stricken people. New York state now is being organized for the drive. Gov. Alfred Smith has accepted the honorary chairmanship of the state committee. Dr. Finley of the state department of education is a member of the state's executive committee and other prominent and distinguished men of the state are working heart and soul in this endeavor to bring relief to the sorrowful and distressed.

"I lend myself most heartily to the cause," declared Gov. Smith. Eastern Europe must have relief and United States must do her part. And she will do her part, as will New York state, never known to fail when the cry of want is heard.

The drive, though being conducted by the American Jewish Relief Committee, is non-sectarian. The fund will go to provide sustenance not only for Jews but for persons of all races and creeds. The peoples of Eastern Europe are suffering. The American Jewish Relief Committee has undertaken the task of raising the money to wipe out, or at least lessen, their hardships.

In Western New York the drive for funds will be started in the latter part of October. The work of organization now is being effected. All communities will be called upon for their quota as in the Red Cross and other drives. And that they will "come across" seems certain.

## U. S. BREAD GREAT NOVELTY

Looked Upon by People of Eastern Europe as a Luxury of the Highest Type.

New York—"American Bread." All white bread is known by this name now in Poland, according to Sholom Aseh, the Yiddish poet, whose account of his investigations in Eastern Europe has just been translated into English for the American Jewish Relief Committee.

Hundreds of thousands of hungry men, women and children in Poland have forgotten that there was such a thing as white bread, it has been so long since they saw it. When they see white bread today its only connection to them is America, because it comes from there.

"In the show windows of Kovno," he continues, "the best food is displayed to incite the appetite of passersby; white bread, sausages, butter, eggs, may all be eyed through the windows, but they cannot be bought."

"Here is a scene from life: A woman is selling rolls from a basket. She cries her wares, but this is unnecessary. There are plenty of people who want them. All the passersby are attracted by the fragrant odor of the freshly baked white bread: A Lithuanian soldier approaches, takes a roll in his hand, examines it; begins to haggle and, finally with a curse goes away empty handed. He has counted all his coppers but cannot find enough to purchase a roll. A peasant woman appears, looks at the rolls, haggles and leaves with a curse."

And so it goes. Except for those who earn money by smuggling, the great and small of Kovno are star-

### First Dolls.

The first dolls of which there is any knowledge were found among the treasures unearthed from the ruins of Babylon. They were small figures in terra cotta and ivory, beautifully carved and must have been fascinating playthings for little Assyrian children. The little girls of Syria had mechanical dolls. The dolls the classic children played with were made of wax and clay, decorated with bright colors. As these children married very young, they played with their dolls until just before their wedding day.

### Commonwealths and States.

Massachusetts, Pennsylvania, Virginia and Kentucky are officially styled commonwealths, although there seems to be no particular reason except custom, as it has practically the same meaning as state. A commonwealth is a democratic form of government, such as that of each state of the Union, the four using the name commonwealth not differing from the others. As far back as 1636 the Massachusetts colony was spoken of as the commonwealth.

### Legend of Origin of Flowers.

In Sussex, England, the lily of the valley is said to be a memorial of the battle St. Leonard fought with a dragon. The holy man encountered the monster in the forest and battled with it for three days. At last the saint was victorious though wounded seriously, and wherever his blood dripped upon the ground there sprang up lilies of the valley in profusion. In France the lily of the valley is said to have been the blood of the Virgin's tears.

### Progressing Rapidly.

For the fourth time a new baby had arrived at the home of Robert's sister Nellie. When informed of the event one of his aunts told him in an impressive manner that he was now an uncle for the fourth time. Rather fussed, the little fellow answered: "Godness me, if things keep on I'll soon be a grandpa."

### Consider Probable End.

Better it is, toward the right conduct of life, to consider what will be the end of a thing, than what is the beginning of it; for what promise fair at first may prove ill, and what seems at first a disadvantage may prove very advantageous.—Wells.

### Centrifugal Force.

A German engineer has invented a device consisting from pipe by centrifugal force, which distributes the water within revolving cylinders that are water cooled.

### The Cult of Fashion.
