

A Burning Shame

Every fire is a burning shame, particularly if that fire might have been avoided.

Even the careful property owner is at the mercy of his careless neighbor. It is everybody's duty to use care. It is also everybody's privilege to insure to a point where their protection equals the present value of their buildings, or commodities.

And even though you are making a supreme effort to prevent fire in your own property, you may have a careless neighbor and not know how to protect yourself against him. Call on this agency, we have something to tell you on this subject.
