THE BEST NOVEL OF THE YEAR "ERSKINE DALE, PIONEER" by JOHN FOX, JR. is now running in SCRIBNER'S MAGAZINE also ROOSEVELT'S LABOR LETTERS

Wealth in Dead Sea Region. It is not generally known that ample quantities of bitumen occur in the Dead sea region. It can easily be gathered and prepared for use in road making, and there is the advantage that it will be obtainable at much cheaper rates than those which now obtain in the Near East and in Europe. The material can best be applied by means of the usual tar-spraying machine.

Weather and Health. An Italian snant, as a result of investigating 24,528 cases, exclusive of contagious diseases, has concluded that morbidity is least in the winter periods, especially in winter, when the highest morbidity accompanies periods of cloudy skies.

Strange Happening. Billy was the favorite neighbor and playmate of little Jeannette. While Billy was visiting some relatives in the country he accidentally broke his arm. When he returned home with the arm in a sling and done up properly with splints, she cried in great excitement. "O, mamma, Billy has come home and brought his broken arm with him!"

Little Maid in the "Moon Door" Symbol of the Hope of New China

Ginling College, at Nanking, is Girls' School in Five Provinces With Population of 111,000,000—Interchurch World Movement to Aid Institution.

The way to all things at Ginling lies through the moon door. And through the moon door on the way to wisdom pass and repass, every day the 70 Chinese maidens of the "gung-gwan." The moon door at Ginling is round as the full moon whence it has its name. And the Chinese maiden, as she steps over its high sill, may spread wide her arms and still not touch its rim with the tips of her fingers. Some times across the court yard is another moon door, and beyond it, like a smaller concentric circle, still another, leading on through that Chinese puzzle of a house, the "gung-gwan" or official residence at Nanking, China, which is now the home of Ginling College for Chinese girls—one of the three women's colleges in all China.

The moon door is but a single feature of the old place. Once inside the high stone walls that enclose it one is lost in a maze of courts and galleries and covered passages and isolated rooms. The whole is China, old China and new. The moon doors and the architecture as a whole lend the dignity and greatness of old China. But the laboratories and dormitories, libraries and studies made from the old rooms of state and ceremony are modern, just as the spirit of the Chinese girls who use them is modern; just as the force America's behind it all, represented by the American missionary organization, is modern. In Ginling, is a Fund of \$500,000. Ginling owns 37 acres of land on the hills beside the Yangtze river. In the Interchurch World Movement survey of China, there is a budget item of \$500,000. It is there to show the Churches of America how they can place upon that land on the hill the library, administration building, recitation buildings, chapel—all that are needed for a modern college. Unless the fund is available by 1921, many young women of China seeking college education must be denied admission to Ginling, because the old "gung-gwan" is too small.

City Folks Becoming Wanderers Due to Increasing Cost of Homes

More Than 54 Per Cent of Nation's Population Are Paying Rent, Interchurch Survey Shows—New York City Leads Country, With 97 in Every 100 in Manhattan Giving Monthly Tributes to Landlord.

More than 88 per cent of the homes in New York City are rented. In the Borough of Manhattan the percentage rises to 97. Nor is this condition limited to the Metropolis. It is common to most cities. The people of the United States who live in rented homes are in excess of 54 per cent of the population, according to the latest government returns. About 45 per cent own the houses in which they live. These statistics have been collected for the survey of city life now being conducted by the Interchurch World Movement to provide a practical program for closer co-operation of Protestant Churches in America. And the survey already reveals one of the gravest problems now confronting the Church. Rented homes, the survey shows, mean migrant families, for the day of the long lease is passing, and increases in rent cause increases in moving. The migration of families has shifted and changed the congregations of urban churches. And too often the family that moves beyond the reach of one church does not transfer its membership to another, even though it attends that other. The moving family, say the workers on the survey, leaves the church letter, by which membership is transferred, and the family cat behind. If the church did not have more lives than a cat, these survey workers are beginning to think, it would have been dead long ago, for, just as the family "loses" its cat, a church loses members, although another church does not gain them. One preacher in a pastorate of 13 years noted 3,000 changes in his congregation. The present generation of the city, the survey reveals, is a generation of wanderers because of the growing number of rented homes and the rising rents. As a result, the family church is becoming an urban rarity. The family in which the father is a founder of the Church he attends, married to a member of the congregation, and with children baptized by the family minister, is more and more seldom found, the survey workers report. Too often the increase in rent has sent the family to another neighborhood. One purpose of the Interchurch World Movement survey of the cities is to determine how, through that efficient co-operation of churches which is the major aim of the movement, migrant families may not be lost to the membership of their respective denominations.

THIS THE MOMENT OF MOMENTS TO GAIN SPIRITUAL UNITY

DR. JOHN R. MOTT. Chairman Executive Committee Interchurch World Movement.

This is the moment of moments for us to find our unity, our spiritual solidarity, without sacrificing our diversity and that which is most distinctive to each of our communions and which, by the way, is the choicest possession we have. The reason why we of each denomination most value that which is distinctive to us is not simply because it is ours, but because we honestly believe it is the truth. It is our choicest possession. Without sacrificing our distinctiveness we want to realize our unity and solidarity as we gather 'round the figure of our Lord with open minds, responsive hearts and, I would say, hair-trigger wills—by that I mean wills that are eager to leap into action when we see a clear path.

DIVINE OWNERSHIP OF ALL THINGS TO BE TAUGHT IN FEBRUARY

Churches All Over Country Will Assist in Interchurch Stewardship Campaign.

The idea that the Creator is owner of all things and that man is only a steward responsible to Him for the administration of material affairs on an unselfish basis, will be emphasized in practically all churches of the United States during February. Agreements to this effect have been reached by many of the leading denominations in the Interchurch World Movement. Pastors throughout the country have indicated their intention of following the suggestions made by the Interchurch Movement's stewardship department for sermons to be preached, study classes to be organized and literature to be distributed.

This campaign of education is to reach its climax on Washington's Birthday, Sunday, February 22, which has been designated as "Nation-wide Stewardship Acknowledgement Day." It is the plan to have all church members make acknowledgment on that day that the Divinity is owner of all things by setting aside a certain proportion of their income for the support of religious causes. While the proportion to be set aside is to be determined by each individual, sermons and studies will suggest that a tenth is a good proportion to start with. It will be pointed out that the Federal income tax law exempts from taxation, up to 15 per cent of the income, money spent for religious and philanthropic purposes.

Not only will the Stewardship campaign emphasize the responsibility of persons to use their material possessions for the advancement of Christianity, but it is urged that Christians have been made the depositories of spiritual resources which must be used for the enrichment of the world. On that assumption all Christians will be reminded of their responsibilities to utilize their privileges of prayer for the winning of the world for Christ and to enlist in active service promulgating the gospel in this country and abroad.

An Assured World Success. "When such a vast multitude of people come together earnestly and prayerfully, there must be developed an outpouring of spiritual power such as this land has never before known. If the Interchurch World Movement is complete in its co-operation, if the individual constituents are consecrated and in earnest, and the leadership is able, there is no limit under God in what may be accomplished in the establishment of His Kingdom on earth." —John D. Rockefeller, Jr.

"No Man Alone Can Take a Trench." "Keep together! Keep together! shouted a commanding officer overseas. "No man alone can take a trench! I say: Keep together! Keep together, men of God! No church alone can take a world!" —G. Sherwood Eddy.

THE UNIVERSAL CAR

Don't Depend on Spring Deliveries

Spring deliveries of Ford cars have never been certain, and they should not be depended upon. Demand has always been greater for Ford cars than the supply or production so if you would be sure of having a Ford car, buy it now while deliveries are possible. Don't wait—even next month is an uncertainty.

Only a limited, specified number of cars has been allotted to this territory. That allotment cannot be increased, because the demand all over the country is greater than the supply or production. Get your order in now, and you will be one of those who is sure of a Ford car out of our allotment.

It's first come—first served. All orders are filled in rotation. So, if you would be forehanded, if you would be certain of having a Ford car when you want it—then you will buy a Ford car now. A signed order with user's protection. It is the result of the wisdom of looking ahead.

If you buy a Ford car now, don't think you have to "store" it. The Ford is a car made to serve its owner for business or pleasure throughout the entire year. Ford owners have long since come to recognize the fact. It is no longer popular to "lay up" your car for the winter. Buy a Ford car now, and use it now.
