Real Estate NEWS

As a new service, Doney Realty is now offering news and information to inform people about different aspects of REAL ESTATE transactions. This week we are advising of the different types of listings available from your Real Estate Broker. The three types are:

- 1.) Exclusive Sales Listing - meaning that only Broker may sell your property, if you sell, you still pay commission.
- 2.) Exclusive Agency - meaning that Broker may sell property, or that owner may sell property on his own and not have to pay commission to any Broker.
- 3.) Open Listing - meaning that any Broker may work or sell your listing or that owner may sell his own property without obligation to any Broker.

Doney Realty believes that the best type is an open listing because the Broker must work harder to sell your property before the owner sells. If the Realtor knows that no sale will be made by him and that he has competition he is bound to work harder for you. Remember, a little competition never hurt anyone. Doney Realty believes that the customers always come first. For all your Real Estate Needs, Buying, Selling, Appraisals, etc., consult the professionals, without any obligation.
