LOCAL INTELLIGENCE

Items of News Pertaining to Cape Vincent and Vicinity.

—On Sunday last, Mr. and Mrs. George P. Zimmerman, Mr. and Mrs. William Mason and children, and Mr. and Mrs. Amos Favret and son gathered at the home of George Zimmerman, in this village, to spend the day, the occasion being Mr. Zimmerman's birthday.

—Watertown Times: The state department of agriculture, discussing the question, "Does singing while milking increase the flow of milk?" says that it does. Probably it depends on who does the singing. The voices of some people would stop the flow of milk entirely. The cow responds naturally to humane treatment.

—Seven to three! That was the score of the game at Alexandria Bay Sunday between the semi-professional team of that resort and the Cape Vincent aggregation. While the Cape boys did not win, and in fact didn't expect to, they made the Bay bill tossers hustle for every score they got. The game was a good one from start to finish, with not the least bit of "cheating" on either side. "Mike" Keefe handled the indicator, and his decisions gave the best of satisfaction. It is quite likely that the teams will come together again before the close of the season.

—Twenty cents an hour does not appeal to a few Cape Vincent men who ought to have a shovel or pick in their hands eight hours a day on road improvement. They toil not, yet they manage to live, at the expense of those who do work. They are ambitious only when there is no work in sight. It is a pity it is so, to put it mildly.

—The lecturers of the various granges in Jefferson county are attending a meeting at the grange hall, Watertown, to-day (Wednesday) at which F. E. Alexander, state lecturer, will be present. Mrs. Hattie Humphrey is the lecturer of the Cape Vincent grange.

—The Hay Trade Journal of last week says: All markets report a scarcity of old hay, the little good hay arriving commanding a premium at most terminals. New hay is arriving in larger quantities but is in such poor condition generally, being heated and awasty, that it has no market value and reliable prices cannot be quoted—in fact, at some markets quotations on hay have been omitted entirely for the past two weeks. The weather has been humid and hot in many localities, which has interfered very materially with the curing of the new hay; in many places it is impossible to harvest it on account of the wet condition of the fields.

—The next session of the Cape Vincent grange, Saturday evening, August 21, the third and fourth degrees will be conferred. —The newspaper is a business proposition and should be treated as such just as much as the cheese factory, the condenser, the store, the mill, or the farm, and the Eagle will be run as a business proposition. We derive our income from the sale of the paper (the subscriptions) and from the sale of advertising space, and the prices that have been established are not high for the service rendered, and our best business people appreciate this fact and ask for and expect no reduction.

—On Tuesday evening a large crowd, consisting mainly of the voters of this village gathered at the post-office corner to hear Miss B. C. Howard, prominent organizer and speaker for the Woman's Suffrage Campaign Committee of this state. Miss Howard was frequently interrupted by applause, which gave evidence of the favorable sentiment in the audience. Miss Howard remained in town to-day (Wednesday) to organize an association in this place. Many of the women of the village have expressed themselves in favor of such an organization. Miss Howard will speak at Three Mile Bay this (Wednesday) evening and at Chamault on Thursday.

—The Watertown Standard of Monday evening had the following: Upon complaint of his brother-in-law, Allen Arthur, of this city, Frank Murray, of Cape Vincent, was arraigned in police court this morning on the charge of petit larceny, committed in stealing a watch valued at \$10 from Arthur. Murray said that he was drunk and took the watch off the bureau at his sister's house. He admitted to the judge that he always stole something when he was drunk. The last time he took a hat and a law book. The police state that after Murray stole the watch, he sold it for a dollar. He pleaded guilty to the charge and was sent to the county jail for a period of 59 days.

—Cheese prices in Northern New York this season seem to follow the lead of the Wisconsin market, which are the lowest in the country. The price paid at Watertown on Saturday was 12%, the same as a week ago. The price committee had a hard fight to agree upon that price. The committee was in session from 3 until 5, the buyers upon the committee hanging out for a lower price. The buyers at the close solemnly asserted that 12% was the ruling price paid. The sales amounted to 2,155 boxes.

—The Gouverneur dairy board held a long session Saturday evening during which there was much argument over the price. The committee could not reach an agreement after a long session and the question was brought back to the board room. The committee started after 13 cents, but finally offered to take 12% cents, but the buyers would not go above 12% cents. The question was discussed from every viewpoint by the board. The buyers pointed out that Wisconsin cheese brought 12% cents and that the offerings were shipped to the eastern markets. The board finally voted to establish a 12% cents market.

—Thursday, September 9, will be grange day at the Jefferson county fair, and arrangements for the events of that day are now nearing completion. Instead of the parade of floats, which was originally intended for that date, each grange will be represented by a group of decorated automobiles. The idea of the floats was given up for the reason that the automobile parade was thought to be more modern. The autos will parade around the city and will then parade around the fair grounds. A farmers' auto parade will also be held on that date and prizes will be awarded for the best decorated cars. It is expected that between 150 and 200 cars will be entered in this event.

—The day of the old wind jammers on the lake is past. There are now 28 schooners in commission on Lake Ontario, where formerly there were several hundred, and they are nearly all Canadian owned, though nearly all one had an American register. As the old schooners and sail crafters pass away their type is not reproduced, but instead small steamers that have found it impossible to longer do business at a profit in competition with the 600-footers, are coming to Lake Ontario and are being used in the coal carrying trade, going into harbors, where the water is not too shallow and even then can be brought in with a partial cargo which will require less water than they usually draw. With a few exceptions all are owned by Canadian coal dealers and companies.

—On Tuesday evening a large crowd, consisting mainly of the voters of this village gathered at the post-office corner to hear Miss B. C. Howard, prominent organizer and speaker for the Woman's Suffrage Campaign Committee of this state. —The day of the old wind jammers on the lake is past. There are now 28 schooners in commission on Lake Ontario, where formerly there were several hundred, and they are nearly all Canadian owned, though nearly all one had an American register. As the old schooners and sail crafters pass away their type is not reproduced, but instead small steamers that have found it impossible to longer do business at a profit in competition with the 600-footers, are coming to Lake Ontario and are being used in the coal carrying trade, going into harbors, where the water is not too shallow and even then can be brought in with a partial cargo which will require less water than they usually draw. With a few exceptions all are owned by Canadian coal dealers and companies.

—The newspaper is a business proposition and should be treated as such just as much as the cheese factory, the condenser, the store, the mill, or the farm, and the Eagle will be run as a business proposition. We derive our income from the sale of the paper (the subscriptions) and from the sale of advertising space, and the prices that have been established are not high for the service rendered, and our best business people appreciate this fact and ask for and expect no reduction.
