Uncle Philander, Jr. The world is full of people trying to get honest dollars dishonestly. If it were not for footing the bills we would all multiply our wants. In the matter of fund soliciting the corner loafer displays wonderful nerve energy. The chronic skeptic disbelieves before the evidence on either side is produced. The transgressor is quite likely to blame others because he made his way hard. The devil finds debatable ground in the church where brotherly love falls below par. In many cases the "wandering boy's" parents don't overdo in hunting him up. Of course, if reform is to take place we want the other fellow to have the first chance. With a great many men something more than a soft answer is needed to be effective. There's no particular danger of getting apart when the husband and wife pull together. Because salvation is said to be free a lot of ministers are also expected to be generous. The man who has time to visit should seek the society of others equally fortunate. Society prevents a lot of well meaning people from saying "good morning" to each other. Before being put to its intended use, the milk of human kindness sometimes becomes sour. Uncle Philander, Jr.
