READY AGAIN
When Wilson called for volunteers,
To go to Mexico,
A hundred thousand answered him,
And numbered six to go,
We left a dandy little job,
To go and fight the Spies,
But all we did was groan a little,
And then got out and did,
And later when he asked for men,
To hit the trail for France,
The offcourse guys were eager,
Just to have another chance,
We quit another lovely job,
To get a crack at war,
But all we did was teach some guys,
What they'd been taken for,
They pay that if the wily Japs,
At this hour unknown,
Don't get what he is looking for,
A war will soon be open,
Our Victory medal has no bars,
Which are not meant intended,
We're ready for the khaki,
If they ever want 'em taken.

FIRE—NO INSURANCE

A. R. Thomas of Atlantic ave., whose
home was damaged by fire about a month ago has sent a letter of thanks
to the firemen through Chief S. Damon of Smith commending the department for
saving his home, and to Policeman Chris Hansen for being first on the
job, Mr. Thomas has reason to be ap-
ing of our efficient fire depart-
ment, as he had no insurance on his
home at the time.
