MAKE FIRES PASSE

Martinez, California, a town of 8,000 population, has a fire loss record that leads not only the State of California, but perhaps the United States by a wide margin. In the year ended August 1, last, the total loss was but \$165—less than three cents per capita.

A record like this is worth emulating and can be emulated. It proves that fire loss is not an actual evil, impossible to do away with, but an entirely unnecessary one that can be intelligently controlled to the point where it practically disappears. Today, what Martinez has done is considered remarkable, and it should be. But it should not be long before every town and city in the country can show minimized fire losses.

Fire loss is almost wholly caused by carelessness. Educate and interest the public, and we will have more records like that of Martinez.

IRRESPONSIBILITY MUST BE CURED

The California Division of Motor Vehicles canceled 41 drivers' licenses in two months for offenses running the gamut from false statements made when applying, to various traffic violations. This is the only way reckless, incompetent and criminal automobile drivers can be weeded off our highways.

All the compulsory liability insurance, laws in the world cannot have half the effect of such examples of the result of irresponsibility and unworthiness. In this age the auto is a necessity, and a driver will think twice before taking chances when he knows that he runs the risk of having his driver's license revoked.

Compulsory automobile liability insurance is not fair to the companies, or the great majority of drivers, who are sane and careful. A few months of wholesale revocation of license when good cause is shown, will do more to cut down accidents than years of compulsory insurance.

BE CAREFUL AT HOME

As many or more people are killed right in their own residences than on the streets and highways. Hundreds of communities, natural organizations, state bodies and local associations are trying to cope with the traffic problem but practically nobody is worried about the national toll taken by home accidents. More than 18,500 men, women and children met accidental deaths in their own homes last year.
