Is it
smart
to save
75¢ at the
Spigot
and waste
dollar after dollar
at the Bung?

BEFORE you buy any house
paint or let any contract,
pause long enough to get actual
figures on the year in and year
out economy of NEW ERA
House Paint as compared to
"ordinary" house paint. Of
course, you may save 50c to 75c
per gallon on ordinary paint. But
you get short covering quality.
You use 30% more gallons. You
get 40% shorter life. In five years
you paint twice with ordinary
house paint to once with Acme
Quality NEW ERA. In other
words, by paying a few cents
more per gallon for this super-
quality paint, you save by the job
and by the year. Ask us for the
actual figures of what this NEW
ERA economy will mean on your
house. Do this before you spend a
nickel for house paint of any kind.
