A FEW WORDS
FROM THE PUBLISHER

At the risk of taking ourselves too seriously, we’d like to set out some of what this newspaper intends to do and say. Our job is to publish a newspaper which becomes clear after a couple of years in business with a weekly that circulates in Chappaqua. There is, however, a philosophical motivation behind this. We’re engaged in a murderous war that bled and divided us. The reason is that a weekly newspaper which focuses on the conduct of local government is an exercise in pointlessness at best and embarrassment, compromising or criminal events, but not yet received it. (Youthful Offender status is designed to protect youngsters who will one day know better, from permanent damage to their record; is not designed to spare them or their-parents, embarrassment.)
