Rochester, Feb'y 21, 1826.

NOTICE.
THE public has been cautioned by Mr. Syl-
vester Doolittle, against purchasing of one
a patent right for raising canal-boats, to repair.
It is true, Mr. Doolittle obtained Letter's patent
bearing an earlier date than mine. It is also true
that he obtained them surreptitiously, and by
a plan of secrecy and concealment, when he knew
that I was proceeding openly to do the same
thing. I have documentary evidence in my
possession sufficient to show any person interest-
ed, that Mr. Doolittle, by his own confession,
matured no plan of this kind until 18 months
after I had communicated the discovery to him.
The statement I now make will be supported in
a Court of Justice as soon as a trial can be had.
In the mean time I offer to sell the privilege of
using the machine, and will if wished, apply in
denial of the purchaser from other claims or pre-
tended claims.
