New SMA Student Council Visits OPA Counterpart

By Rose Berube

On Thursday, March 14, members of the newly elected Student Council of St. Mary's Academy visited various offices at the headquarters of the Ogdensburg Parish Association. The Student Council was in town as a part of their welcoming visit to the city. They were accompanied by Father Joseph F. St. John, O.S.B., and Father John Flaherty, O.S.B., who are both familiar with the OPA staff. The students were shown around the building and its facilities, which include offices, a meeting room, and a kitchen, and were given an overview of the OPA's activities. They then had the opportunity to ask questions about the various programs and services offered by the OPA, and to discuss ways in which they could become involved and contribute to the community. The visit was an opportunity for the students to gain a greater understanding of the role of the OPA in the community and to develop a sense of belonging and commitment to the city. It was a positive and enriching experience for all involved.
