SEEDS THAT GROW

A BUSINESS WITH A REPUTATION.

It is an experiment when you can have the surer and satisfaction of a business that has been built up by honest endeavor to furnish the best. From a small, independent beginning my sales have so increased and the trade so extended that it is now by far the largest SEED HOUSE in this part of the State.

HOW COULD I DO IT

Except by furnishing honest, ten-cent seeds of varieties that are a decided improvement over the old common sort at prices that are right with a small reasonable margin of profit. My seeds have always received a good advertising in themselves wherever used which are among the strong points in my phenomenal success.

Your success with my seeds has made my success possible. The one thing for which I have worked hardest has been the confidence of the people. Trade is always starting in big. Buying in such immense quantities I can offer big inducements and save every purchaser money whether the order is large or small.

SEED CORN, SEED GRAINS,
Famous Swedish Oats,
GARDEN AND FLOWER SEEDS

of every description. All my seeds are carefully tested before offering them to the public. You take no risk in buying seeds of me.
