Attack on Algeria - We have seen a letter (says the Nation) from the U. S. frigate Constitution, Gibraltar, May 7, which says "The French will, in all probability, be the victors in the last of the present month, with nearly 100 vessels of war, and upwards of 700 vessels of all descriptions, sustained by an army of 40,000 men."

Curious Circumstance - As Mr. B. K. Crandall, who resides within a short distance of this place, was standing in the street, a swarm of bees lit on his hat, covering it completely. At the moment of our writing this, he is on his way home with his old "good send" - the strangest covering for a head, in this age of fantastical head gear, that has been seen "about these days."

Freak of nature - On Tuesday last a boy brought to this office a living Duck, having four perfect legs! The two hind legs, if we may so speak, were placed exactly like those of a lion. In the same neighborhood, the same week the wife of Mr. John Dieffendoffer presented to him two girls. Perhaps some of those in a state of celibacy would incline to matrimony by a short residence in White Deer. - Milton Pa. Miltonian.
