Brisk Winter Days Stimulate Appetite
For Substantial Food

A fluffy, golden-browned casserole is almost superior to any cold sausage.
This one contains potatoes, sausages as well as beef and eggs with the vegetables, which is whole kernel corn.

Make Hearty Meals
When the family comes tramping home on cold nights with the appetite
as sharp as a razor’s edge, it is best to make food that is easily digested.
Fewer ingredients are necessary, especially when the food is not sub­
teresting. But there’s an answer to all this.

Fluffy bread made the potatoes all the more inviting, the vegetables and
polished corn the meal complete.
